

# SAFETY DATA SHEET

## BoilOut Pods (Conforms to CFR 1910, 1200)

### 1. IDENTIFICATION OF SUBSTANCE

**PRODUCT NAME:** Fryer Boil-Out Compound

**TRADE NAME:** BoilOut Pods

**SUPPLIER:** Oil Solutions Group, Inc  
Colleyville, TX 76034

Information department: Product Safety Department

### 2. COMPOSITION/DATA ON INGREDIENTS

| CAS No.    | Description                        | %Min. |
|------------|------------------------------------|-------|
| 10101-89-0 | Trisodium phosphate, dodecahydrate | 49%   |
| 8-UN3253PG | Sodium Metasilicate Pentahydrate   | 50%   |
| 9050-36-6  | Maltodextrin                       |       |
| 63148-62-9 | Polydimethylsiloxane               |       |
| 67762-90-7 | Methylated silica                  | 1%    |

Synonyms: Sodium phosphate tribasic dodecahydrate: sodium orthophosphate dodecahydrate.

### 3. HAZARDS IDENTIFICATION

BoilOut PODS are not explosive, flammable, or combustible.

Acute inhalation:

May cause coughing, chest pain, shortness of breath, upper respiratory tract irritation, serious damage to lung tissue and respiratory tract.

Acute Ingestion:

May cause irritation, corrosion, or burns to the mouth and esophagus.

Aspiration of the swallowed or vomited product can cause severe pulmonary complications.

Acute Skin Contact:

May cause burns or irritation,

Irritation is likely to be more severe if the skin is moist or wet.

Areas of prolonged exposure may result in severe tissue reactions requiring medical attention.

Acute Eye Contact:

May cause burns, irritation, and permanent damage to the cornea.

Chronic effects:

This product does not contain any ingredient designated by IARC, NTP,ACGIH, or OSHA as probable or suspected human carcinogens.

|                    |                     |                       |            |                |
|--------------------|---------------------|-----------------------|------------|----------------|
| <b>3 - Health</b>  | <b>0 - Fire</b>     | <b>0 - Reactivity</b> | <b>X -</b> |                |
| HMIS ratings (0-4) | Trisodium Phosphate | Health = 3            | Fire = 0   | Reactivity = 0 |

## **4. FIRST AID MEASURES**

### **Call physician immediately.**

- Inhalation:** Remove victim from source of exposure. Seek immediate medical attention.
- Ingestion:** **Do not induce vomiting.** If victim is conscious and alert, give 2-3 glasses of water to drink.
- Skin contact:** Wash exposed area thoroughly with soap and water for 15 minutes.  
Remove contaminated clothing while washing, clean clothing thoroughly before re-use.
- Eye Contact:** Hold eyes open and flush with a gentle stream of water for at least 15 minutes.

### **Medical conditions possibly aggravated by exposure:**

Inhalation of product may aggravate existing chronic respiratory problems such as asthma, emphysema or bronchitis. Skin contact may aggravate existing skin disease.

### **Notes to physician:**

Ingestion of large quantities of phosphate salts (over 1.0 grams for an adult) may cause an osmotic catharsis resulting in diarrhea and probably abdominal cramps. Larger doses such as 4-8 grams will almost certainly cause these effects to everyone. In healthy individuals most of the ingested salt will be excreted in the feces with the diarrhea and will not cause any systemic toxicity. Doses greater than 10 grams hypothetically may cause systemic toxicity.

Sodium phosphate salts have a hypothetical risk of hypernatremia, so sodium levels should be monitored.

## **5. FIRE FIGHTING MEASURES**

- Extinguishing media:** Select the proper media to extinguish a surrounding fire.  
Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing.

## **6. ACCIDENTAL RELEASE MEASURES**

- SPILL CLEANUP METHODS:** Sweep or vacuum spilled material and place in appropriate container (see Storage precautions). Clean up residual material by washing with water. Make sure that all personnel involved in housekeeping and spill clean-up follow good industrial hygiene practices and wear proper personal protective equipment.

## **7. HANDLING AND STORAGE**

- USAGE PRECAUTIONS:** Avoid prolonged contact with skin and eyes. Avoid breathing dust.

- STORAGE CRITERIA:** Keep containers dry. Store in tightly closed containers in an area that is cool, dry, well-ventilated, and away from foodstuffs or animal feed.

## **8. EXPOSURE CONTROLS AND PERSONAL PROTECTION**

### RECOMMENDED PROTECTIVE EQUIPMENT:

- |                                |  |
|--------------------------------|--|
| <b>VENTILATION:</b>            | No special requirements.                       |
| <b>RESPIRATORS:</b>            | Not required under normal use.                 |
| <b>PROTECTIVE GLOVES:</b>      | Elbow length, rubber.                          |
| <b>EYE PROTECTION:</b>         | Goggles or safety glassed with side shield.    |
| <b>HYGIENIC WORK ROUTINES:</b> | Do not consume food or beverages in work area. |

## **9. PHYSICAL AND CHEMICAL PROPERTIES**

|                                 |                   |
|---------------------------------|-------------------|
| Normal Physical State @ 68° F:  | Odorless granules |
| Solubility in Water:            | Soluble           |
| pH, 1% wt/wt solution in water; | 11.8              |
| Melting Point:                  | N/A*              |
| Vapor Pressure:                 | N/A*              |
| Viscosity:                      | N/A*              |
| Boiling Point:                  | N/A*              |
| Vapor Density:                  | N/A*              |
| % Volatile:                     | N/A*              |
| Evaporation Rate:               | N/A*              |
| Ignition Temperature:           | N/A*              |

\*N/A – Not Available

## **10. STABILITY AND REACTIVITY**

|                                   |  |
|-----------------------------------|--|
| Stability:                        | Stable under normal handling and storage conditions.   |
| Conditions to avoid;              | Moisture   |
| Materials to avoid:               | Strong acids and prolonged contact with magnesium, aluminum, tin, lead, or zinc.                           |
| Polymerization:                   | Will not occur.  |
| Hazardous decomposition products: | Thermal decomposition of trisodium phosphate might result in formation of oxides of sodium or phosphorous. |

## **11. TOXICOLOGICAL INFORMATION**

|                                    |  |
|------------------------------------|--|
| Trisodium phosphate, dodecahydrate | <u>LD 50 of ingredient</u><br>7400mc/KG, oral rat  |
| Trisodium phosphate                | <u>Skin irritation</u><br>corrosive, 24h covered, moist skin, rabbit<br>Non-irritating – 4 hr uncovered exposure, dry skin, rabbit |
| Trisodium phosphate                | <u>Eye irritation</u><br>corrosive, rabbit   |

This product does not contain any ingredient designated by IARC, NTP, ACGIH, or OSHA as probable or suspected human carcinogens.

## **12. ECOLOGICAL INFORMATION**

WATER HAZARD CLASSIFICATION: No data found for ingredients.

## **13. DISPOSAL CONSIDERATIONS**

Disposal methods: Consult state and local regulations on regarding disposal of this material.

## **14. TRANSPORT INFORMATION**

PROPPER SHIPPING NAME: NOT REGULATED  
 DOT HAZARD CLASS: NOT REGULATED  
 CERCLA Reportable Quantity (RQ) for trisodium phosphate is 5000 pounds. Packages weighing less than 5000 pounds are not subject DOT regulations.

## **15.REGULATORY INFORMATION**

All ingredients of this product are reported in the TSCA Inventory.  
This product does not contain any components that are regulated under California Proposition 65.  
This product is an acute health hazard under SARA III.  
FDA Status: This product meets the compositional requirements of 21 CFR 182.1778.

## **16. OTHER INFORMATION**

### APPROXIMATE CHEMICAL FORMULAS:

Trisodium phosphate, dodecahydrate (NA3PO4.12H2O) 4NaOH

### **DISCLAIMER OF LIABILITY:**

The data contained herein is furnished gratuitously and independent of any sale of any product. It is supplied only for your investigation and possible independent verification. While the data is believed to be correct the Seven G'S makes no representation as to the accuracy of any of the data contained herein. In no event shall the Seven G'S be responsible for any damages of any nature whatsoever directly or indirectly resulting from the publication, use or reliance upon any of the data contained herein. Data sheets are available for the Seven G'S products. You are urged to obtain data sheets for all the Seven G'S products you buy, process, and use or distribute and you are encouraged to advise anyone working with or exposed to such products of the information contained in the applicable data sheets.

**THE DATA IN THIS DOCUMENT IS PROVIDED WITHOUT ANY REPRESENTATION OR WARRANTY, EXPRESSED OR IMPLIED, REGARDING ITS ACCURACY OR CORRECTNESS.**

**NO WARRANTY, EITHER EXPRESSED OR IMPLIED, OF MERCHANTABILITY OR FITNESS OR OF ANY NATURE IS MADE WITH RESPECT TO ANY PRODUCT REFERRED TO HEREIN.
